Elysian Valley & Cypress Park Residents For Clean Air & Quiet Neighborhoods

In an October community meeting, more than 100 neighbors questioned Metrolink officials about the toxic air and noise pollution they subject our neighborhoods to, 7 days a week, around the clock. Very serious health risks are associated with the pollution from the Central Maintenance Facility on San Fernando Road.

Metrolink officials will return to a community meeting, January 25, 2012, to respond to the many questions raised by our communities. The Air Quality Management District (AQMD), area neighborhood councils and elected officials will also attend.

Community Meeting
Wednesday January 25, 2012
6:30 PM
LA River Center
570 W. Ave 26
Los Angeles, CA 90065

Hosted by Assemblymember Gil Cedillo's office, 45th District
More information or assistance Conrado Terrazas- 323-225-4545
