

What does 6 ft. apart look like?

Washing our hands and wearing masks are important to staying healthy, but so is six feet physical distancing. Use this coloring sheet to better understand how far apart we should be with people who live outside of our own homes.

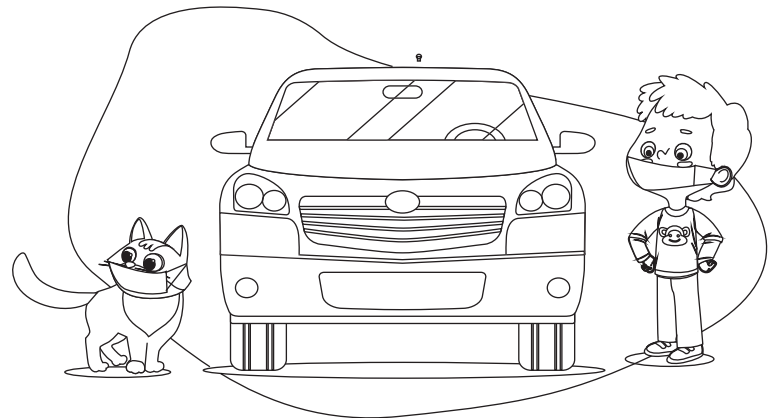

← The average width of a couch →

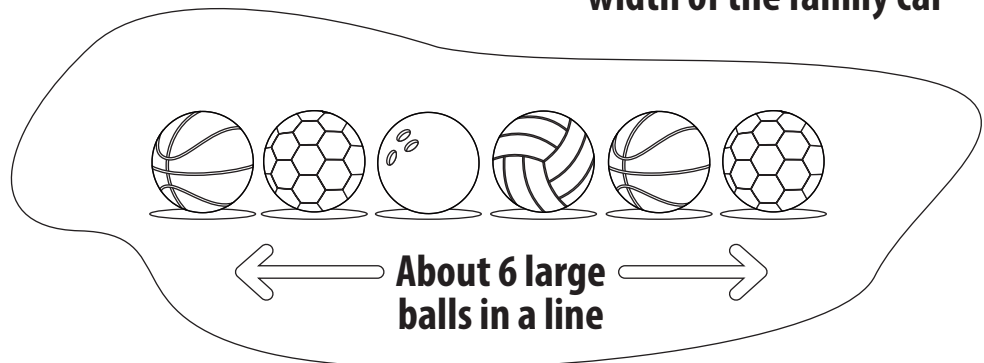

← The average length of a dog leash →

← The average height of a christmas tree →

← The average width of the family car →

← About 6 large balls in a line →
